

Seth Ghin Kai was a student of Dunman Secondary School from 2021 to 2024. He completed the GCE O-level Examination in November 2024.

### **Academic Ability and Related Skills**

Seth is a confident and diligent student. He is clear about his goals and shows focus and conscientiousness in seeking to accomplish them. He exercises self-discipline and is capable of working independently. Seth takes pride in his assignments and works hard to achieve his goals. As recognition for his academic progress, he was awarded the Edusave Good Progress Award in 2022 as well as the Community Development Council / Citizens' Consultative Committee (CDC/CCC) Education Merit Award in 2023.

### **Personal Qualities and Character**

Seth is a humble individual. Well-mannered and mature in his actions, he is considerate to his peers and always willing to help his peers when they approach him for help in their academic work.

A committed and talented member of the school Guitar Ensemble Co-Curricular Activity (CCA), Seth represented the school in the Singapore Youth Festival Arts Presentation in 2023 and the ensemble obtained a Certificate of Accomplishment. Seth also contributed actively for school activities by performing with the Guitar Ensemble for the Dunman 60th Anniversary Gala Dinner, National Day as well as Chinese New Year. Furthermore, Seth's leadership potential was recognised as he took on the role of Vice-Chairperson in the CCA. Seth's organisation skills were put to the test in the execution of the concert, Ikigai Resonance: Guitar Tales of Passionate Melodies in 2024.

Seth was also chosen to be part of the annual Youth Digital Currency Programme (YDCP) organised by the school in collaboration with Temasek Polytechnic (TP) from April 2023 to March 2024. In this programme, Seth learnt how to organise raw data with Power BI by using charts and graphs to make sense of it. He also learned web development and coding languages like HTML, CSS and Javascript. Seth then presented his group project to his batchmates as well as lecturers from TP. This unique experience provided Seth with an edge over other potential students interested in Information Technology related courses in TP.

Seth showed enthusiasm in volunteering and caring for the community through his Values-In-Action (VIA) projects. In 2023 and 2024, Seth collaborated with his class to design creative and engaging activities for the young residents of the Pasir Ris community. Seth also contributed to the successful execution of the activities, bringing bright smiles to the audience who turned up for the event.

### **Potential and Closing**

With such positive qualities, Seth has the potential to succeed in life. His diligent and persevering attitude towards his goals will propel him forward in achieving his dreams. Seth will be a valued member of any organization he joins in the future.
